

An Izdehar Corp. Initiative

Iz-TECH Innovation Hub

Iz-TECH Narrative

About

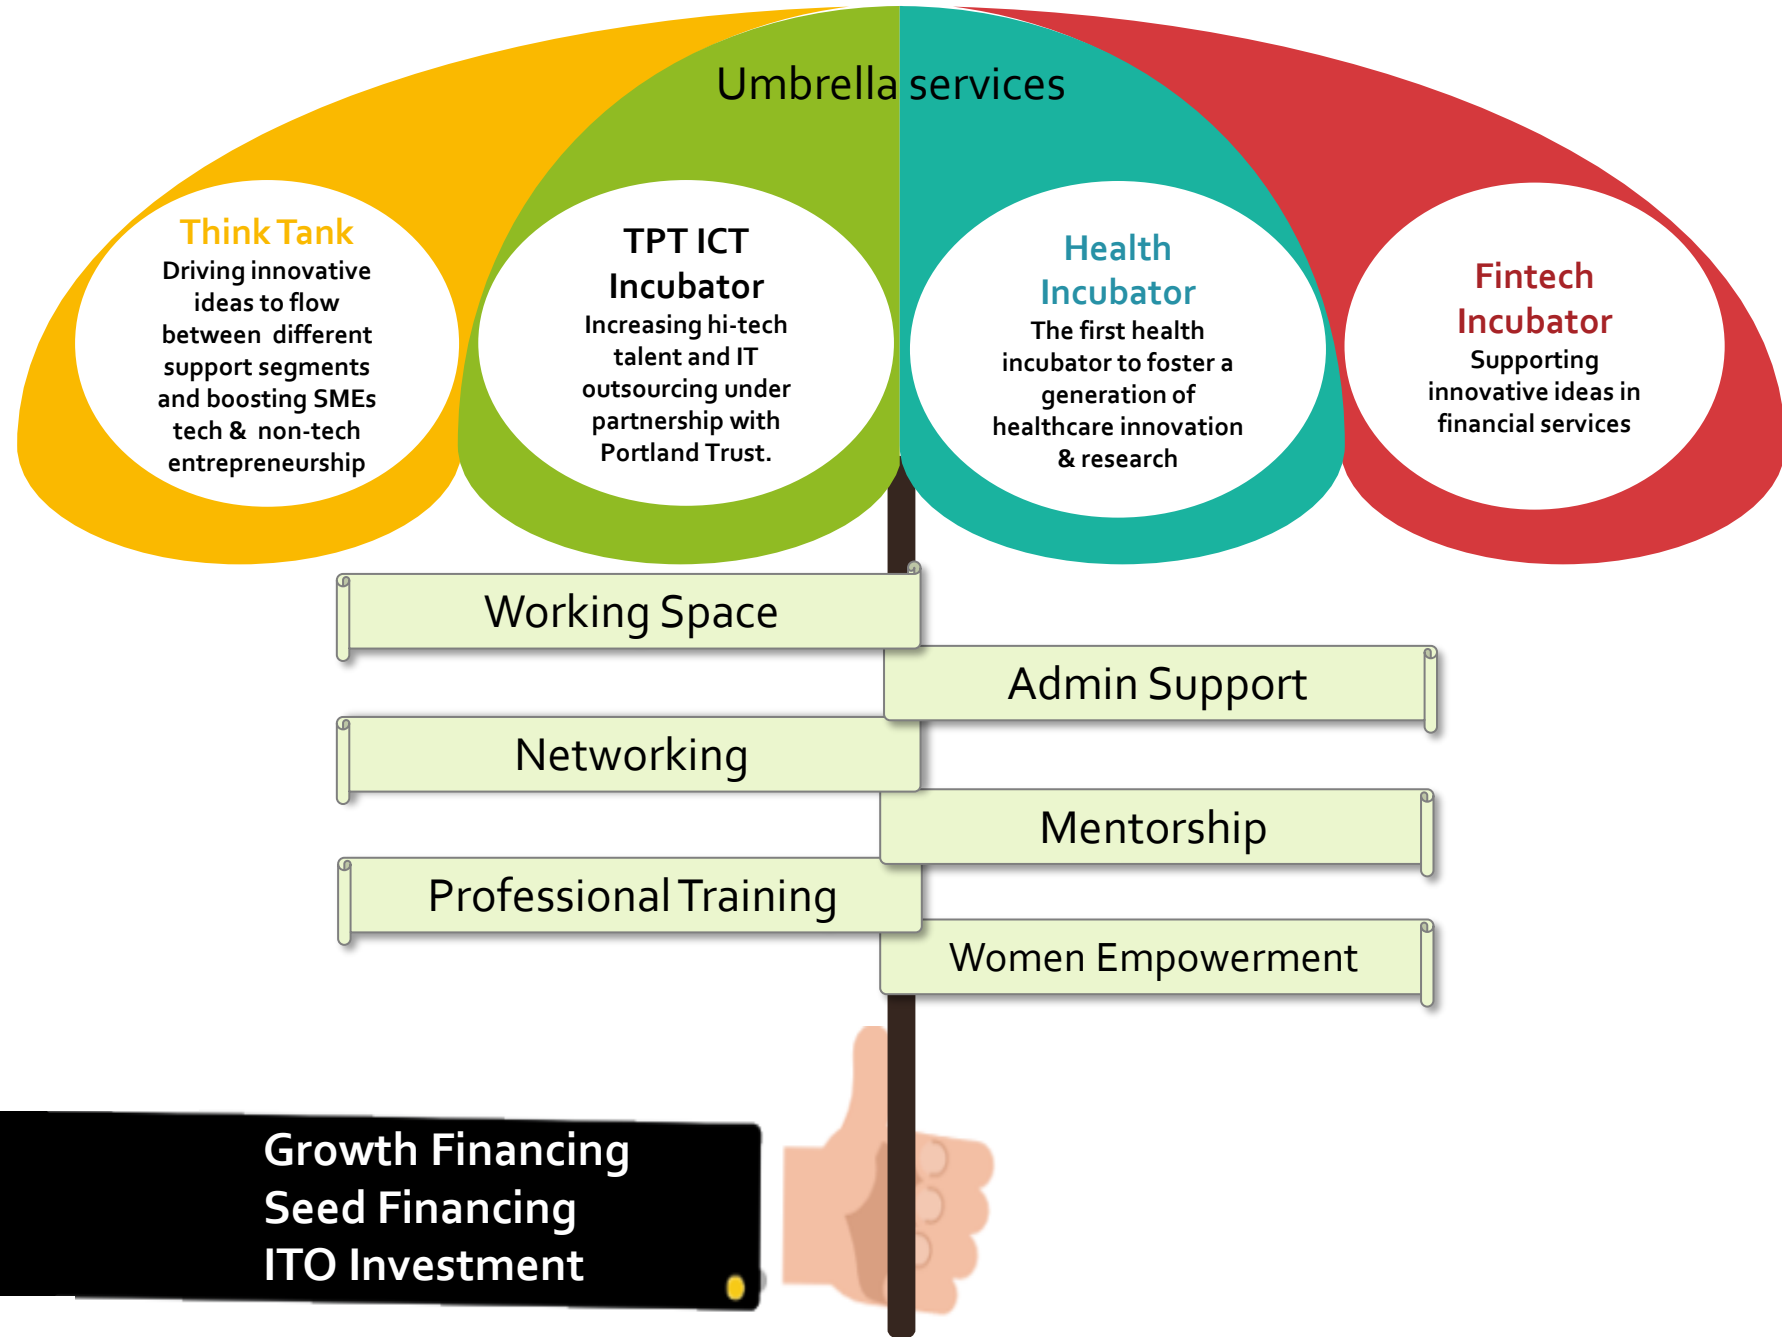

Iz-tech (short for Izdehar Technology) is an innovation support platform that provides support services and capacity building for individuals and businesses in the initial stages of development (seeds, development, start-ups, growth and expansion).

Goal

To create an innovative, open-minded and adaptive Palestinian business environment and ecosystem in cooperation with donors and funders that are conducive to start-ups, innovators and general entrepreneurship opportunities in all fields

Iz-TECH

Structure

Iz-TECH Targeted Segments

MARGINALISED

Target marginalised groups as a priority where applicable.

PROGRESSIVE BUSINESS

*Established businesses looking for **support to expand and grow** and startups or any other entrepreneurial idea.*

FRESH GRADUATES

***Train and capacity build** new graduates to help them integrate into regional and international markets.*

UNEMPLOYED

*Revive weak sectors and **create opportunities and jobs**.*
